## **DETAILED ACTION**

### ***Rejections Repeated***

1. The 35 U.S.C. 102(b) rejection of claims 1-4 anticipated by Harada et al. (wo 99/65095) has been repeated as previously made in office action 7/20/2006.
2. The 35 U.S.C. 102(e) rejection of claims 1-4 anticipated by Harada et al. (6440607) has been repeated as previously made in office action 7/20/2006.

### ***Response to Arguments***

3. Applicant's arguments filed 10/18/2006 have been fully considered but they are not persuasive.

In response to applicant's argument that Harada et al. fail to disclose that the carboxylated styrene butadiene copolymer latex disclosed therein functions as a complex forming agent which forms a complex with aluminum, Harada et al. teaches that the carboxylated styrene-butadiene copolymer latex used as the binder serves to bind together particles of the powder containing the hydrogen absorbing alloy as a major component (col. 10 lines 16-19). Harada et al. further teaches that the hydrogen absorbing alloy may be an alloy such as aluminum (col. 9 line 59). Therefore, Harada et al. teaches that the carboxylated styrene butadiene copolymer latex disclosed therein functions as a complex forming agent which forms a complex with aluminum because the carboxylated styrene-butadiene copolymer binds together particles of the powder containing aluminum. Furthermore, Harada et al. teaches that the carboxylated styrene butadiene copolymer latex and the hydrogen absorbing alloy powder are added to the mixture thereby preparing a paste of negative electrode (col. 11 lines 63-66).

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
